REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The independent claims recite a method of reducing zipper in an image by modeling the error based on brightness, establishing a model, producing a recovery model based on the first model, and removing the zipper based on the recovery model.

The above features, as explicitly recited, and in combination with the other elements of the claim are neither disclosed nor suggested by the nearest prior art of the record.

Prior arts Fiete, Bolin, Nakata et al. (6747696), and Takahashi (6744916) do not disclose these steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
